INTRODUCTION

The Coal Technology Information Centre was established in April, 1978, as part of the Alberta Research Council. The Centre, which is funded by the Alberta Department of Energy and Natural Resources, (Energy Resources Research Fund) acts as an agency through which information can be furnished to Government Departments, Industry and Universities.

The objective of the Coal Technology Information Centre is to identify, collect, index, store, retrieve and disseminate information related to the winning and subsequent processing of coal. As well, as maintaining and updating a computerized searchable data bank, the Centre provides a published cumulative edition and a semi-annual update of the Coal-Abs Index.

The published Index consists of: a List of Holdings, Keyword Index, Author Index and Corporate Author Index.

LIST OF HOLDINGS - consists of identifier, title, author, source and other revelant information related to each document in the data bank.

example:

0178 84 (*) Article, Gasification

Design considerations for an in-situ gasification test of Eastern bituminous coals
By Strickland, L.D. / Martin, J.W. / Liberatore, A.J.
Morgantown Energy Research Centre, Morgantown, West Virginia
Proceedings of the 13th Intersociety Energy Conversion Engineering Conference, Volume 1, San Diego, California, p. 355-365 Aug. 1978

(*) means a table of contents for this document is available on-line

Digitized by the Internet Archive
in 2017 with funding from
University of Alberta Libraries

https://archive.org/details/coalabstractscoa02coal_0

(a) Identifier:

List of Holdings is arranged in separate subject categories. The first two numbers of the identifier are a number code indicating one of the eleven different subject classifications.

01 GASIFICATION
02 LIQUEFACTION
03 BENEFICIATION
04 MINING
05 ENVIRONMENT
06 COMBUSTION
07 GEOLOGY
08 TRANSPORTATION
09 EXPLORATION
10 PROPERTIES
11 ENERGY POLICY

The second set of two numbers indicate the year the document was published. Citations are listed under each subject category in descending chronological order.

(b) Abstracts:

Abstracts of all documents in the Index are available in a printed or on-line format, at the Coal Technology Information Centre.

(c) Keywords:

Specific keywords have been assigned to some of the documents in the data bank and they are also available on-line.

KEYWORD INDEX - consists of an alphabetical listing of keywords followed by the identifier, title and report number of the document in which they appear. These citations are also listed in descending chronological order.

AUTHOR INDEX - consists of an alphabetical listing by author surname.

CORPORATE AUTHOR INDEX - consists of an alphabetical listing by corporate author phrase. Citations are listed in descending order.

The Centre maintains a full copy of the original article for reference purposes. All material in the data bank can be photocopied for a small service charge.

Any on-line search requests can be conducted through the Coal Technology Information Centre.
